Grantee Comments:	HS is one child under enrolled at Edelman. The population base in that area is getting smaller because families with young children who can move are doing so to obtain jobs. Staff located a child who was enrolled the first week of February, just missing the cut off. We should be fully enrolled in February.

Grantee Comments:	We are continuing in the conversion process. Because it is taking longer than expected to find/renovate space and get classrooms ready to run, staff has met to re-plan. We plan to hire an additional home visitor who will carry 11 children. $152+11 = 163/168$ which will get us to 97%. We currently are advertising for a home visitor.

Grantee Comments:	<p>EHS is at 152. Our plan was to hire a home visitor to carry a caseload of 12 until we are able to complete partnership agreement and renovation for the classrooms. $152+12 = 164/168 = 97.6\%$. This, of course, is a temporary measure to bring our enrollment to 97%.</p> <p>However, before we could complete interviews and recommend hire, COVID19 intervened. Even had we managed to hire, proper training and attaining a caseload in the current environment (Alabama's governor issued a stay at home order through April) is not realistic. Additionally the potential partnership for space project is on hold.</p>

Grantee Comments:	<p>We continue in the conversion process. Were starting to interview for EHS home visitor to cover majority of conversion children until we could complete rooms. COVID19 has put everything on hold.</p>
